

5th International Game Sense Conference

Proudly hosted by ACHPER South Australia

The Australian Council for Health, Physical Education and Recreation, SA Branch Inc.

Registration now open

Join us in Adelaide, South Australia at the 5th International Game Sense Conference in July 2017. Take this opportunity to meet and network with a variety of Australian and international PE educators and sport coaches.

A range of experienced and dynamic presenters, keynote speakers, educators and practitioners will be invited to share their knowledge and expertise.

This game sense conference is for you!

Experience Adelaide - South Australia

The Conference will feature a successful format including a mix of practical and theory. We invite you to participate in what will be a premier HPE/Sport professional learning event in the Southern Hemisphere. The format will follow the highly successful model of the 29th ACHPER International Conference which was held in Adelaide in 2015.

Adelaide offers all the benefits of a large international metropolis without the problems of a big city. Food and wine are a large part of Adelaide culture. Adelaide is the wine capital of Australia with wine regions located within an hours drive of the city.

Keynote Speakers details on next page

Keynote Speakers

Professor Daniel Memmert, University of Cologne

Daniel Memmert is a professor and Executive Director of the Institute of Training and Computer Science in Sport, German Sport University Cologne, Germany, with a visiting assistant professorship 2014 at the University of Vienna, Austria. Daniel is particularly interested in how players read and respond to the ever changing dynamics of a game, the organisation of information and action through perception and decision making and the

flexibility to adapt to changing circumstances through high quality adaptive behaviour. At the heart of this is an understanding that skill is the technical and tactical dimensions of the game working together as complimentary pairs. In his publications and work with elite football clubs, including Barcelona FC, Daniel promotes the influence of context, the possibilities of creativity in children and how vital it is for young players to experience the global form of a game in early development.

Dr Ian Renshaw, Queensland University of Technology

Dr Ian Renshaw is a Senior Lecturer at QUT, Brisbane, Australia. Ian is a former PE teacher now teaching and researching sports coaching, skill acquisition and sport psychology for over 25 years. Ian also coaches a range of sports, but focuses on cricket, 8 year olds through to adults, football and rugby union. Ian is particularly interested in developing constraint-led approaches for PE and coaching.

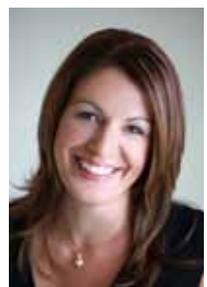

Associate Professor Shane Pill, Flinders University

Shane is Associate Professor in Physical Education Studies at Flinders University. He taught secondary physical education in schools in Perth and Adelaide for 18 years prior to his tenure at Flinders University. Shane has been involved in sport coaching and coach education since 1987. Shane teaches and researches in skill acquisition, sport coaching and physical education pedagogy at Flinders University and is a celebrated author in Australia and overseas with his "Play with Purpose" series of books for coaches and physical educators. Information about Shane's teaching, publications and community engagement are available at <http://www.flinders.edu.au/people/shane.pill>

Dr Christina Curry, Western Sydney University

Dr Christina Curry is at the School of Education at University of Western Sydney. Christina has over 20 years experience in the physical education sector, developing and refining her skills in teaching, research, recreational needs, wellbeing, and community engagement. Christina has a focus on improving the wellbeing of children through physical education and working collaboratively with teachers and schools to achieve positive PE experiences that lead to life long participation.
