Assessing student work in Australian Curriculum: HPE (Secondary)

Are you worrying about teaching and assessing student learning in both strands of the AC: HPE? Then this is the workshop that you have been looking for.

This workshop led by Tracy Zilm (ACARA), Rick Baldock (ACHPER (SA)) and other experienced teachers, will support and challenge you to develop quality assessment practices and make effective judgments about student learning using the Achievement Standards.

We have designed a 'hands on' workshop where you will be given time to:

- Unpack and explore the AC: HPE Achievement standards
- Practice making judgements about students' work in health education and physical education and
- Share and investigate teacher developed assessment tasks and review your school's assessment tasks

We have designed this workshop for secondary school Health and Physical Education teachers.

NB The workshop will be most effective for you and your school when at least two staff members from your faculty attend so that you can begin to plan quality assessment tasks across your school.

Certificates of attendance including hours completed and AITSL Standarts for TRB will be available to participants.

When: Wednesday, 5 April 2017 (Week 10, Term 1)

Time: 9:00am - 3:30pm
