

Attn: Health & PE Coordinator / Head Teacher

Effective Leadership for Health & Physical Education Coordinators Leadership in a time of Innovation and Change

HPE leaders recognise the importance of preparing their students for the future. As educators we need to provide students with the knowledge, skills and understandings to thrive in the rapidly changing world.

Leadership is an important capacity to change the way that learning occurs. Given that we are in a period of almost constant educational reform and restructuring and where disruption in the norm then the role of HPE and the leadership of this area is critical.

This seminar will support HPE leaders and those aspiring to leadership roles in schools to work more effectively across their schools and Partnerships/Cluster.

Participants will be provided with opportunities to think strategically about their planning, change management and review processes that can make a positive impact in their school and within their faculty.

Issues to be covered during this seminar will include:

- o Genuine Leadership - Accountability and authenticity
- o Leading and managing change and innovation
- o Working across generations
- o Leading and managing change and innovation
- o Auditing your current HPE programs- bring along a copy of your current program for discussion and planning for implementation of the Aust Curriculum
- o Advocating for Health & PE- current issues and challenges
- o Issues and solutions- time to workshop and discuss ideas, thoughts and strategies
- o Effective teaching methodologies that engage and stimulate student learning
- o Whole of school approaches for health and physical activity promotion
- o Tools to support change and effective leadership
