

Jump Start your HPE Program

Looking to get organised for teaching your HPE program during 2018? Then this is the workshop for you.

We have put together a day where you will have time to work with experienced teachers in HPE to:

- Explore and begin planning to teach the Australian Curriculum: HPE (AC:HPE)
- Consider how the 5 Propositions in HPE will inform your planning, teaching and assessment
- Plan an innovative Unit of Work in PE using a thematic approach
- Reflect on how to create a positive learning environment
- Provide time to consider how to move beyond behaviour management and motivate students to learn.

We are looking forward to a great day helping you to get on top of your planning and jump start 2018.

Rick Baldock will be available for afternoon mentoring sessions for individuals or small groups after this morning session. Please contact the office for availability and prices.
